NOTE FOR: DD/SOVA
DD/OGI

STAT

Here is the rough draft of the NIE on Soviet energy. I plan to use the draft as a basis for substantive discussion at a meeting next Wednesday, 19 October, at 10:00 a.m. I am inviting experts from DIA, and have asked [redacted]

[redacted] to read the draft and participate in the discussion, which means that it will have to be limited to the Secret level, at least that morning. If necessary, we can resume in the afternoon at a higher level of classification.
